BUSINESS SYSTEMS

The **Neotechnology Amicus** system for supermarkets is a reliable and cost effective system for businesses of any size. The highly simplified sales process increases the speed and efficiency of the operators, allowing more customers to be served, increasing profits and growing the business.

Individual sites are integrated seamlessly with other locations and warehouses, providing efficiency and lower administrative overheads through centralised information and databases.

Investing in the **Neotechnology Amicus** system is an investment in your businesses future.

“Neotechnology’s Amicus makes invoicing and stock control very easy. The software is user-friendly and can be tailored to suit individual needs. It’s very flexible and can be applied to all facets of a business including retail, wholesale and stock control”

John Fiotakis, Lipscombe Larder
